

SOCIAL INFLATION AND OTHER FACTORS DRIVING LIABILITY CLAIM COSTS

November 3, 2020 | Events

JSH partner [Gary Linder](#) will join a panel of experts to present “Social Inflation and Other Factors Driving Liability Claim Costs” during the 2020 Claims & Litigation Management (CLM) Focus Conference.

In today’s environment, businesses must contend with social inflation, nuclear verdicts, broadening definitions of liability, and an increasingly litigious society. Large, unexpected claim costs can have a notable effect on a company’s bottom line. The question is whether these tendencies are real and if businesses can develop strategies to address them. This session will review recent liability trends and identify some of the strategies and best practices that are emerging in today’s environment.

“Social Inflation and Other Factors Driving Liability Claim Costs”

Wednesday, November 4, 2020 | 11:00 AM ET

Speakers:

Dylan Braverman, Vigorito, Barker, Patterson, Nichols and Porter, L.L.P.

Allison Daly, Sedgwick

Brenda Lillington, University of California

Gary Linder, Jones, Skelton & Hochuli, P.L.C.

[Gary Linder](#) focuses his defense practice primarily in the areas of civil and tort/negligence. He represents officers and directors in matters involving professional liability, construction defect, auto and aviation product liability, and wrongful death and personal injury. Gary also maintains a significant dram shop practice, and has handled more than 100 dram shop cases in almost every populated county in Arizona. His experience in this area includes any type of claim that could arise under a policy issued to a bar or restaurant, including premises liability, and assault and excessive force claims.
